## II. ABOUT THE SCHOOL

*Crosspoint Academy – Strand* is an urban, Christian-based, Holistic, non-government, school that exists to provide quality education to children in the Helderberg area. It is centrally located in the safe and quiet CBD of Strand, overlooking the beach. It is a Primary School with grades RR/R and 1-7; registered with the Western Cape Education Department (EMIS # 0100000361). Class sizes are limited to 24 learners per class, per teacher and are CAPS-aligned (using the government approved Curriculum Assessment Policy Statements educational standards as the chosen curriculum). The school offers English as the Home Language, and Afrikaans as a First Additional Language. As a mainstream school, we also provide care and inclusive support for children with some Learning Differences.

**VALUES:** The compassionate Heart of God is at the core of *The Crosspoint Foundation* and *Crosspoint Academy*; encompassing honesty, accountability, humility, and an energetic/proactive approach to life—impacting the diverse lives of the children, parents, teachers, staff, and all who pass through our door. We are “guiding hearts and minds” into altruistic leaders of tomorrow.

- **Heart of God / Compassion:** We exist to grow both the heart and mind. We create children who care for one-another, their community, their culture, their country, and the world. We are moved by the needs of others to act in making a positive difference in their lives (even in the little ways).
- **Energetic / Proactive:** Every day is a new day to begin fresh, excited, and ready to participate in the environment around us. We place our energy into being proactively ready for the school day ahead; and then energetically giving it our all as the facilitators of learning our students need.
- **Accountability:** We hold ourselves accountable for our own actions, admit when we make mistakes, and strive to be our best selves for our fellow staff and our students.
- **Honesty:** It is vital that honesty be held in high regard in all communications with each other, students, and parents. Even when faced with the vulnerability of expressing the truth and asking for forgiveness, honesty shows our students that the RIGHT way to handle life situations is always in a truthful way.
- **Humility:** This allows for selflessness and dignity. We have and show humility by listening to and accepting others. Humility allows each one of us to be “great” in the hearts of others (a mentor). Humility creates an open mind and recognition of the strengths in ourselves and others.

**VISION:** In “guiding hearts and minds”, *The Crosspoint Foundation* and *Crosspoint Academy* focus not only on the academics for the child, but also their mental and emotional wellbeing. Much of a person’s health and learning is directly related to their psycho-social state. This wholistic approach embraces the connections of Spirit, Heart, Soul, Mind, and Body to fulfil the potential of the individual in a social context. With this, the child can excel in who they are without limitations to who they can be.

**MISSION:** To develop a holistic child that grows into a young adult ready to face the world around them. Taking with them the energy, passion, and strength to overcome anything they face through embracing the values and vision engrained in them at *Crosspoint Academy*. This, with our Teaching Methodology, make our school unique.

**Teaching Methodology:** At *Crosspoint Academy* we use an International-style of teaching using “Active Learning”. The instruction given by teachers engage with students on their level allowing them to be active participants in their own learning process. Active learning is exciting and looks like everything from changing worksheet to a fun activity, pausing to reflect to role playing, small and large group discussions, hands-on tech, brainstorming, and case studies. Our teachers are always circulating the classroom to gauge student understanding of the topic. Formative assessment is our assessment of choice, using things like exit tickets, clip-board cruising, and classroom polls. However, we do follow the CAPS the curriculum and must take the formal assessments as required by the WCED. We feel our teaching methods prepare our students for these summative assessments more than any other type of teaching.

**III. PHYSICAL, MENTAL, EMOTIONAL, EDUCATIONAL, AND SOCIAL WELLBEING**

As Crosspoint Academy cares for the child as a whole, we look for ways in which we can assist the child where they are to then open up ways that they can reach their utmost potential. With your help as their parent / guardian, the more accurate the information we have from you about your child and their environment, the more we can guide your child in the best way possible.

Following are key sections that help us better understand as many aspects as possible of your child. In doing so, we are better prepared to assist you and your child. Failure to accurately disclose or inform the school about any important facts about the learner’s lifestyle or behaviour, may negatively impact your child or other learners.

You must inform the school if your child is known to have or has been diagnosed with a learning difference and include the necessary documentation. With this information, we are able to better cater to your child’s needs. Where any concerns are noted or discovered relating to your child’s wellbeing, we will do our utmost to inform you and find the most suitable ways to help you with the best interest of the child.

**This includes filling in the following checklists, other forms, and consultations with our in-school therapist.**

Learners and students with HIV/AIDS should lead as full a life as possible and will not be denied the opportunity to receive an education to the maximum of their ability. Infection control measures and adaptations will be universally applied and carried out regardless of the known or unknown HIV status of individuals concerned.

**IV. PARENT / GUARDIAN CONSENT FOR HOLISTIC DEVELOPMENT THERAPY**

*Crosspoint Academy* has an on-staff (in-school) Holistic Therapist. This individual provides therapy to your child as and when needed—focusing on all areas of development; paying careful attention to their cognitive, social, psychological, physical, and emotional wellbeing.

The role of the Therapist is to uncover if and where support within any areas of functioning might be needed, and intervene as necessary. At times, this might require further assessment and intervention by a relevant specialist outside of, or brought in, by the school. If this is the case, you will be called in for a meeting so as to discuss the way forward together as a team for the benefit of your child.

The school and Therapist holds confidentiality in very high regard and maintains this as far as possible. If your child is in danger to themselves or others, or requires further intervention, you will be contacted, and certain information will need to be disclosed to the Principal / Management Team and relevant Specialists.

You will be informed if your child is of concern while receiving support, and you will be involved in the process as far as possible, so that we can all work together in assisting your child.

In order to help understand how we can best support your child’s growth and development; we need to understand if/where any barriers may lie in order for us to accurately assist them as best we can. This process to help your child includes filling in the questions below and on the next page.

If your child is identified to possibly need extra help in school, we would like to have your child assessed to see if there are any barriers to learning; whether that be social, academic, emotional, or physical barriers that are contributing to them not reaching their full potential at school. Thus, when/where deemed necessary for a child, additional questionnaires would need to be completed, and the school may solicit outside support for: testing of oral, ears, and eyes; as well as use of other therapists, counsellors, and/or Educational Psychologists.

We therefore require consent. Thus, I (name of parent / guardian) ..... (tick):

- Give consent for this child to receive Supportive Therapy.**
- Give permission to gather all relevant information regarding this child.**

*If not ticked above, it is assumed that you have given consent by the signing of this Enrolment Application document.*

**NB: On the following questions, please be as honest and accurate as possible for the care and benefit of the child:**

1. How would you describe your child? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

2. Is there anything else you would like to share with us about your child that you feel is important?

As *Crosspoint Academy* is a Mainstream School, we may not be able to provide all we can to support your child. However, we will do our utmost to accommodate your child in the school which may involve differing solutions between the school, parent / guardian, and child. However, on a case-by-case basis, it may be deemed necessary for you to place your child in a different school or specialized care-facility that better caters to your child’s educational needs, as well as their physical, mental, or medical condition. *Crosspoint Academy* does not have the knowledge, accessibility, or trained staff (doctors / nurses) to accurately and safely accommodate some children with specialized individual needs. If and when this may occur, we will communicate with the parent / guardian.
